3.6m	92.5
4.0m	81

Styles

Valance Style

Each one of our Designer Collection umbrellas have an allocated valance that creates the overall look.

Canopy Colours

All canopies are made from 100% solution-dyed acrylic, offering premium strength and excellent fade resistance.

*Our wind ratings apply to umbrellas, positioned horizontally, and exposed to free airflow. Product warranty does not cover wind damage, regardless of wind speed. We always recommend closing the umbrella when not in use.

*While our printed and digital swatches are designed to provide a close representation, subtle variations in colour and texture can occur.
